PROFESSIONAL SUMMARY

Seeking a challenging job or entry-level position in Software Industry, leveraging my strong foundation in Engineering and Technology acquired during my B.tech program. Eager to apply my theoretical knowledge to practical, real-world projects and contribute to a dynamic team while continuing to learn and develop my skills.

EDUCATION

RVR and JC College of Engineering,   **June 2021 - April 2025**
Bachelor of Computer Science and Business Systems(CGPA of 8.3.)   *Guntur*

Jawahar Navodaya Vidyalaya,   **June 2019 - April 2021**
Intermediate(percentage of 90)   *Ongole*

SKILLS

Technical Skills	C, Java, Python, Html, CSS, Javascript, Django
Soft Skills	Problem solving, Adaptability, Leadership
Developer Tools	VS Code, Google Colab, Android Studio

PROJECTS

Smart Order System.
Orchestrated the development of SOS, a disruptive restaurant management system, leveraging HTML, CSS, Python, and Django technologies; streamlined order processing, leading to a 30 percent decrease in order fulfillment time, 20 percent boost in customer satisfaction and a 25 percent increase in kitchen efficiency.(Try it here)

Food Munch Website.
Food Munch Website is an enticing online platform meticulously crafted with HTML, CSS, and Bootstrap Utilities, emphasizing front-end development. Featuring a user-friendly menu bar, customers can effortlessly navigate through various categories of food items, place orders seamlessly, and access a dedicated "Contact Us" section for inquiries and feedback. With its responsive design, Food Munch Website ensures optimal functionality and aesthetics across all devices, providing an immersive digital experience for food enthusiasts.(Try it here)

To-Do App.
The To-Do App is a JavaScript-based web application designed to streamline task management. With its intuitive interface, users can effortlessly add, modify, and delete daily tasks to stay organized and productive. Offering real-time updates and customization options, the app ensures a seamless user experience across devices, empowering users to efficiently manage their tasks anytime, anywhere.(Try it here)

INTERNSHIP

NASSCOM   **Mar 2023 - May 2023**
Java Intern   *Guntur, Andhra Pradesh*

- In the Expert Java certification course, I demonstrated a comprehensive understanding of Java programming concepts and principles. With a Gold certification, scoring 91per overall, I exhibited strong skills in areas such as basic programming constructs, arrays, and object-oriented programming principles.

- The course covered various modules, including programming fundamentals, control structures, data types, classes and objects, inheritance, and more. Through hands-on exercises and assessments, I gained practical experience in writing Java code, debugging, and problem-solving.

- This certification has equipped me with valuable knowledge and skills in Java development, enabling me to contribute effectively to software projects and continue my learning journey in this widely-used programming language.

OasisInfoByte   **Sept 2023 - Oct 2023**
Front End Developer Intern   *Guntur, Andhra Pradesh*

- During the 1-month internship in Web Development and Designing at Oasis Infobyte, I gained hands-on experience with various web development technologies. I worked on projects such as developing a personal portfolio website, a todo app, a temperature converter, a tribute page, and a landing page.

- Through these projects, I honed my skills in HTML, CSS, and JavaScript, which are essential for front-end web development. I also had the opportunity to work with popular front-end frameworks and libraries like React, Angular, or Vue.js, depending on the project requirements.

- Additionally, I collaborated with team members using version control systems like Git to manage code changes and assign tasks effectively. This experience provided me with valuable insights into working in a team environment and following best practices for web development.

CERTIFICATION

- AWS Cloud Fundamentals(AZ 900)   Microsoft

- AWS Cloud Fundamentals Certification.   AICTE

- Programming in Java,Big Data Computing   NPTEL

- Web Development Certification   OasisInfoByte

- Data Analytics   Google Coursera

- Expert Java   FutureSkills

ACHIEVEMENTS

- Completed **150 problems** at LeetCode with 80 percentage of accuracy.

- Won **Second prize** in APTICODE Comptetion organised by IEEE - IEEE College Student club.

- Coordinated and executed the **Colloquy Event** within a tight timeline, selecting compelling Group Discussion topics that fostered active participation and critical thinking among 150+ students.
